Dear **Nitya Sri Deepak Raj**,

We are pleased to welcome you to the **Live Project with OpenIntervue**, focused on testing our cutting-edge **AI-Interview Platform**. Your participation will contribute directly to the enhancement of a product designed to transform the candidate assessment landscape across industries.

Project Overview

As part of this initiative, you will engage with our platform, participate in simulated interviews, and provide feedback to help improve the AI-driven assessment experience. Your involvement will offer meaningful insights into system usability, accuracy, and performance.

What You Can Expect

- **Hands-on Experience** with a next-generation tech assessment platform.

- **Exposure to AI-based interviewing processes**, widely adopted by top global organizations.

- **Real-time Interaction** through immersive interview simulations.

Perks

- **Stipend of ₹2,000** upon successful completion of **25 interview sessions**.

- **Certificate of Participation** recognizing your contribution to a live, industry-relevant technology project.

Project Duration: 3 Months

We are excited to have you onboard and look forward to your active participation in this live project.

Thank you for collaborating with us in shaping the future of AI-powered hiring.
